

Remembrance Invocation

Dear Divine Source of All,

On this day and every other day, may I remember that I am part of your Divine Design and I am always in the right place at the right time for my supreme destiny to unfold through me.

May I remember that I am here, on Earth, to fully inhabit the sacred vessel of my physical body and to radiate your infinite light through every cell of my embodied presence.

**I have chosen this journey eons ago
and I am encoded for it.**

Remembrance Invocation

May I remember that every day I can choose to co-create with your infinite presence.

As I walk with you in service and devotion may I give myself permission to experience life with profound curiosity, genuine joy and heart-felt gratitude for the opportunity to play in this realm.

May I remember that I am always connected to you and all that is. When I surrender to this innate knowing, everything I am and do becomes a pure emanation of your infinite light.

Remembrance Invocation

May I remember that prosperity is part of my original coding and I am part of prosperity.
It is natural to me. I am prosperity!

May I know my worth and the majestic value I bring to the world through my embodied presence and my offerings. May I also remember that I am here to equally abundantly give and abundantly receive what is available to me – in all ways.
May I be utterly open to both.

**May I remember that you are
the infinite Source of all and for all,
and I can choose at any time
to attune to the frequency of that reality.**

Remembrance Invocation

I surrender to the coding of my supreme destiny.
I bless all past experiences and decisions that
brought me to where I am right now.
I release what I think I know into the fire of
initiation, so that I can be reborn into my clearest
knowing and my highest service.

Please move me to where I need to be.
Please show me what I need to see.
May what needs to go go and what wants to
come come. May I always know without question
that I am held by realms seen and unseen. May I
deeply trust the timing of my life here on Earth and
allow myself to adore my own experience.

I am you. You are me. We are One.

SO IT IS.
